**DETAILED ACTION**

1. Acknowledgment is made of applicant's amendment which was received by the Office on November 22, 2004.

2. Claims 1 and 11 are canceled. Claims 2-10 and 12-59 are active.

***Terminal Disclaimer***

3. Applicant's Terminal Disclaimer was received and approved on December 21, 2004.

***Claim Rejections - 35 USC § 112***

4. In view of applicant's claim modifications, the Examiner is withdrawing the 35 U.S.C 112 2<sup>nd</sup> paragraph rejections which were made against claims 31, 42, and 53 in the last Office action.

***Claim Rejections - 35 USC § 102***

5. Upon further reconsideration of applicant's cancellation of claims 1 and 11, and modifications to the claims, the Examiner is withdrawing the 35 U.S.C 102(e) rejection of Snell '705 which was made against claims 1, 10, 11, and 20 in the last Office action.

***Double Patenting***

6. In view of applicant's submission of an approved Terminal Disclaimer, the Examiner is withdrawing the Double Patenting rejections based upon the 6,221,011 and 6,277,072 U.S. patents, which were made against claims 1-10 and 51-59 in the last Office action.

***Allowable Subject Matter***

7. Claims 2-10 and 12-59 are now allowed.

***Reasons for Allowance***

8. The following is an examiner's statement of reasons for allowance:

Claims 8 and 18, as amended, now recite a system and corresponding method, respectively, for determining a reference baseline of patient information for automated remote patient care including the unique feature of an "analysis module" capable of collecting and analyzing "device measures sets" relative to "reference measures" in a "baseline" to determine a "patient status indicator". Unable to find these details in the prior art, the Examiner deems these claims and their depending claims to be allowable.

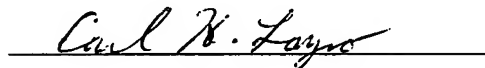

Similarly, independent claims 21, 29, and 40 also recite details regarding the analysis of "measures sets". These claims, and their depending claims, are deemed to be allowable for the same reasons stated previously in the last Office action.

Independent claim 51 recites details of a computer-readable storage medium holding code capable of "comparing one or more...collected device measures sets...to the reference

measures set". Again, unable to find code capable of performing this function in the prior art, the Examiner deems this claim and its depending claims to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

A handwritten signature in cursive script, reading "Carl N. Layno", is written over a horizontal line.
